ABOUT FORTON Macedonia

Forton Macedonia is an advisory company focused on commercial real estate. We are a subsidiary of Forton International and Bulgaria's largest real estate holding company AG Capital and an Alliance Partner of Cushman & Wakefield, the world's largest privately owned real estate advisory firm, for Bulgaria, Serbia, Macedonia and Kosovo.

Our company provides a full range of commercial property services to clients and partners. We are able to guide investors through every stage of the real estate process – from research & strategic planning, to the purchase, financing, leasing, management, valuation and disposal of assets.

Our job involves scrutinizing individual real estate assets and portfolios to advise on the best alternative use and/or restructuring approach, with a view to maximize investment value in the long run.

Cushman & Wakefield is our gateway to investors in over 60 countries worldwide.

We employ this strategic alliance, local knowledge and expertise to add value to our clients' real estate projects and developments.

Forton Macedonia publishes twice a year a real estate market digest for Macedonia. A full version can be purchased.
